Dear Mr. Pefanis:

On December 23, 2009, I conducted a final construction inspection of the above referenced facility. Mr. Daniel D. Terranova, P.E. with TTL Inc. submitted a Construction Certification Summary letter dated December 22, 2009.

At the time of my inspection, Cell 2 construction activities had been completed. There were no deficiencies noted during my inspection or in review of the above referenced construction certification summary letter. Therefore, Cell 2 of this facility may be placed in operation upon receipt of this letter.

If you have any questions concerning this letter, please call me at (731) 512-1376.

Sincerely,
